

ScanSoft®

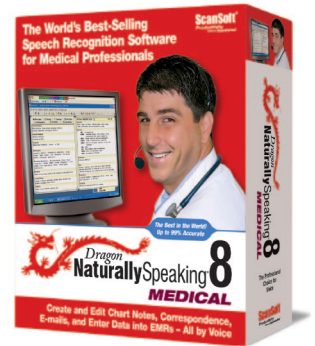

Dragon NaturallySpeaking® 8 MEDICAL

“Dragon NaturallySpeaking is absolutely instrumental in helping me to generate reports in an expedient and cost effective manner. Its accuracy and speed are remarkable.”

-Dr. William Sniger M.D.

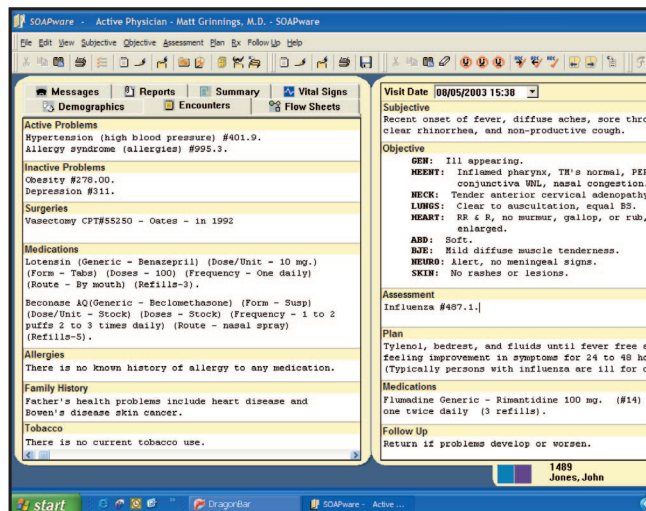

THE PRESCRIPTION FOR TRANSCRIPTION

Dragon NaturallySpeaking® Medical 8 truly delivers on the promise of speech recognition in healthcare. Never has a release of Dragon NaturallySpeaking been as accurate – Dragon NaturallySpeaking Medical 8 is 20% more accurate than the previous release, and delivers up to 99% accuracy! Now healthcare professionals can truly eliminate the high cost and long turnaround time associated with manual transcription of patient notes. The result is lower costs and better patient care.

Dragon NaturallySpeaking Medical 8 lets you access your unique “user profile” from any workstation in your organization’s network, so you can “roam” your hospital, clinic or practice and always have access to the power of Dragon NaturallySpeaking. Dragon NaturallySpeaking Medical 8 also comes with a complete library of 14 medical specialty vocabularies, as well as the tools to further customize vocabularies for a specific practice.

If your organization is ready to dramatically reduce costs and improve patient care, contact ScanSoft or any certified Dragon NaturallySpeaking reseller today!

Works with any electronic patient records application

Dragon NaturallySpeaking Medical 8 will also work with virtually any electronic patient records application. Navigate fields and screens, fill out forms, enter free text dictation, all without touching your keyboard or waiting for manual transcription.

Patient notes completed instantly

As soon as you finish dictating, your patient notes are instantly complete and available to patients and other caregivers.

Dictate on-the-go

You can dictate directly into a PC, or be productive on-the-go by dictation into a ScanSoft certified handheld device such as a digital recorder, Pocket PC or palmOne™ Tungsten™. It's easy to have Dragon NaturallySpeaking automatically transcribe recorded dictations when you synch with your PC.

System Requirements

- Intel® Pentium® III / 500 MHz processor (or equivalent AMD® processor)
- 256 MB RAM (512 MB RAM Recommended)
- 500 MB free hard disk space
- Microsoft® Windows® XP (SP1 or higher) Home and Professional, 2000 (SP4 or higher)
- Creative® SoundBlaster® 16 or equivalent sound card supporting 16-bit recording
- Microsoft® Internet Explorer 5 or higher (free download available at www.microsoft.com)
- CD-ROM drive (required for installation)
- ScanSoft-approved noise-canceling headset microphone (included)
- Speakers (required for playback of recorded speech and text-to-speech features).
- A Web connection is required for activation.

WORKS WITH THE APPLICATIONS YOU RELY ON

Dictate, edit and control applications all by voice with any Windows-based electronic patient records application, plus programs like Microsoft® Word, Outlook®, Excel, PowerPoint®, Internet Explorer®, Corel® WordPerfect®, and more.

More accurate than ever before: With a 20% increase in accuracy, Dragon NaturallySpeaking 8 is up to 99% accurate.

Network ready: You can even access your unique Dragon NaturallySpeaking “profile” from any PC on your organization’s local area network.

APIs for developers: Use the Dragon NaturallySpeaking SDK to “voice-enable” any workflow application.

Full library of medical specialty vocabularies: Dragon NaturallySpeaking comes with specialty vocabularies for Radiology, Cardiology, Surgery, General Medicine, Family Practice, ObGyn, Neurology, Pathology, Orthopedic, Emergency, Mental Health, Oncology, Pediatrics and Gastroenterology.

Works with virtually any electronic patient records application: Navigate fields and screens, fill out forms, enter free text dictation, all without touching your keyboard or waiting for manual transcription.

Mobile: Be productive on-the-go! Import recordings from any ScanSoft-certified handheld device for automatic transcription and have a third party editor quickly and easily make corrections.

Use voice commands: Create simple commands that will automate complex, multi-step tasks. Just say a single word or phrase and let your computer do the rest.

REDUCE TRANSCRIPTION COSTS AND IMPROVE THE QUALITY OF CARE

Use Dragon NaturallySpeaking® Medical to have clinical dictation instantly and automatically transcribed on a PC. The results are reduced cost and turnaround time of manual transcription. Dictate directly into a PC or any ScanSoft®-certified digital recorder or PDA. Dragon NaturallySpeaking Medical will also make it easier for physicians to adopt electronic health records applications.

MANUAL TRANSCRIPTION

Average cost per year per doctor for manual transcription:

\$15,000

Average turnaround time per dictation:

Up to two weeks

DRAGON NATURALLYSPEAKING MEDICAL 8

Cost for Dragon NaturallySpeaking Medical 8:

\$3,000 including training and support—and the cost goes down every year!

Average turnaround time per dictation:

Instantaneous

With Dragon NaturallySpeaking Medical 8 now is the time to eliminate the costs and long turnaround times associated with manual transcription. With Dragon NaturallySpeaking Medical 8, you can get software, training and support in the first year all for under \$3,000. In future years, the cost is even less because you'll only need ongoing support. The savings Dragon NaturallySpeaking 8 provides over manual transcription is significant—over \$10,000 per year per doctor! And, because your clinical notes are instantly available to patients and other caregivers, the quality of care improves.

PLUS: POWERFUL NEW TOOLS FOR DEVELOPERS AND SYSTEM INTEGRATORS

The Dragon NaturallySpeaking SDK includes everything needed to add cutting-edge speech recognition technology to any workflow application. This easy-to-use toolkit enables everything from free text dictation to command and control functionality, and can be deployed as part of a server or client based solution.
