

Time is on my side, yes it is

Philips Digital Pocket Memo® 9360

Mobile dictation

Work efficiently, word for word, with the Digital Pocket Memo® 9360. Handy, powerful and efficient, you can comfortably operate the latest recording technology with the 4-position switch. With the exchangeable Multimedia or SD Cards, you have virtually unlimited recording time. Its ten user-definable keywords allow easy file organization and archiving. Voice files can be easily and quickly downloaded directly to your PC via a USB cable for professional transcription.

The Digital Pocket Memo® is packaged with SpeechExec Dictate, Philips' new dictation software that provides authors with easy-to-use functionality for organizing recordings. The software can also be configured to the user's preferences. Featuring a modern and intuitive user interface, authors can quickly and easily define urgent jobs and track work in progress.

Digital Pocket Memo® 9360

Key benefits of the Digital Pocket Memo® 9360

- Single-handed operation with the 4-position switch
- Backlit LC display with two display setting options
- Exchangeable Multimedia/SD Card for unlimited recording
- DSS file format creates minimum file sizes while maintaining crystal clear sound quality
- Ten user-definable keywords for easy organization and filing of dictations
- Automatic transfer of dictation files via e-mail or FTP
- Automatic PC download through PC USB cable or optional docking station 9110
- Fast battery recharging through the optional docking station 9110
- Can be used as a standard USB 2.0 audio and mass storage device
- End-of letter index marks dictation files as complete and automatically generates a new file (button can also be disabled)
- Up to 32 indices per file
- Voice-activated recording gives users hands-free dictation
- Insert, overwrite and delete functions allow full editing and continuity of dictation (buttons can also be disabled)
- Two display settings allow users to select the way information is displayed on the screen (numeric or graphical)
- Three-level adjustable microphone sensitivity for conference or close-range recordings
- User-defined label entry enables you to label a dictation without being connected to your PC

Key benefits of SpeechExec Dictate

- Efficient handling of sound files makes job retrieval simple and fast
- Priority indexing allows authors to easily define urgent jobs
- Job status information allows you to track work in progress
