Dragon® Medical Small Practice 10
Features and Specifications

PRODUCT DESCRIPTION

Dragon Medical Small Practice 10 is a member of the most widely used and successful speech recognition solution family in the history of healthcare. Dragon Medical technology is used by over 80,000 clinicians in the US today to document care by speech.

Dragon Medical Small Practice 10 is a special version of Dragon Medical 10 especially designed for practices with 5 physicians or less. Dragon Medical Small Practice 10 offers the fastest, most efficient way for clinicians in small practices to create medical records, medical correspondence or e-mail messages. It allows clinicians to turn their voices into text three times faster than most people type with up to 99% accuracy using virtually any Windows-based word processing software. Dragon Medical Small Practice 10 offers vocabularies covering 75 medical specialties and subspecialties.

Dragon Medical Small Practice 10 significantly reduces the time clinicians spend documenting care as well as the costs associated with using transcriptionists. With Dragon Medical Small Practice 10, transcription costs are completely eliminated and dictated reports are instantly ready for signature and for distribution to referring physicians and the back office for billing and reimbursement. Dragon Medical Small Practice 10 was designed specifically to support the needs of a small practice, including meeting HIPAA guidelines, delivering better quality of care and improving both patient and physician satisfaction.

PRODUCT FEATURES

Below is a summary of new features and capabilities which will be found in Dragon Medical 10 products.

Major New Features and Enhancements

- **Improved Accuracy.** (Enhanced) You won't find a more accurate speech recognition product for your PC anywhere. Dragon Medical Small Practice 10 is up to 20% more accurate out of the box than Dragon NaturallySpeaking Medical Version 9, and Dragon Medical Small Practice 10 is over 38% more accurate than Dragon Professional 10 when used in a medical setting.

- **Faster Than Ever.** (Enhanced) Compared to Version 9, Dragon Medical Small Practice 10 delivers significant improvement in response time. Fast speakers will observe more than 50% reduction in the time it takes for words to appear on the screen. Since some speakers pause in their dictation to watch the results, having words appear on the screen sooner facilitates a more seamless dictation experience.

- **Electronic Medical Record Support.** (Enhanced) Medical professionals can navigate and dictate inside third-party EMR application software.

- **HIPAA Supportive.** (New) Protects patient confidentiality and helps provider organizations support HIPAA standards.

- **Medical Vocabularies.** (Enhanced) Dragon Medical Small Practice contains vocabularies covering 75 medical specialties and subspecialties which ensure high physician dictation accuracy.

Dragon® Medical Small Practice 10
Features and Specifications

- **PowerMic™ Ready.** (Enhanced) Program your PowerMic buttons to run any Dragon function or user voice command.

- **Medical Formatting Rules.** (New) Smart software expands medical abbreviations and follows capitalization rules of medical terms.

- **Improved Auto-Transcription.** (Enhanced) *The Auto-Transcribe Folder Agent now creates a synchronized audio file along with the automatic transcript for deferred correction.* Dragon Medical Small Practice 10 gives the Auto-Transcribe Agent the option of creating a synchronized audio (.DRA) file along with the transcript file, making it possible to later get the benefit of Playback and Correction—just like users dictating in word processors can save the .DRA file along with their dictated document, which enables a third party to correct errors, refining the speaker's profile.

- **New Look and Feel.** (New) Updated icons are intuitive and easy to see. Dragon Medical Small Practice 10 introduces new graphical icons to enhance the DragonBar™ user interface, making the product easier to use.

- **Improved Help System and Tutorials.** (Enhanced) Dragon Medical Small Practice 10 offers an enhanced interactive tutorial with a completely new look and feel. Customizable help screens remind you of your favorite commands.

In addition, Dragon Medical Small Practice 10 includes dozens of additional new features and enhancements described below, which are categorized for ease of review.

New Accuracy Features

- **Regional Accent Support.** (New) Dragon supports many regional accents.

- **Automatic Accuracy Tuning.** (New) Dragon Medical Small Practice 10 can automatically run tuning programs to improve accuracy while you sleep.

- **Embedded Data Collection Tool.** (New) Optional data collection engine (switched off by default) is embedded in the product to encourage more users to collect speech data and share with Nuance® to help improve overall product accuracy in future releases.

- **More Flexible Enrollment.** (Enhanced) Special simplified voice enrollment is available for speakers who have difficulty reading interactive text passages. Dragon Medical Small Practice 10 set-up now offers dysarthric support to tune acoustic models during initial configuration. By making it easier to read the text used to train the product to an individual user's voice, Dragon Medical Small Practice 10 improves the experience for younger users and users with certain speech impairments.

- **Medical Bluetooth® Acoustical Model Support.** (Enhanced) Special new acoustic software makes recognition with your Bluetooth headset higher than ever.

- **Improved Third-Party Correction (New).** Your digital voice recording is now sent to your transcriptionist along with the text for more streamlined correcting.

Features and Specifications

New Navigation and Control Features

- **Voice Shortcuts for Email and Calendar.** (New) Dragon Voice Shortcuts collapses common tasks into simple voice commands. Now you can send emails and schedule meetings – faster than ever before.

- **Voice Shortcuts for Web Search (New).** Dragon Voice Shortcuts collapses common tasks into simple voice commands. Now you can search the Web—faster than ever before.

- **Voice Shortcuts for Desktop Search.** (New) Dragon Voice Shortcuts collapses common tasks into simple voice commands. Now you can search your desktop – faster than ever before.

- **Quick Voice Formatting (Delete <that> and Format <that> commands).** (Enhanced) In addition to the many existing editing commands such as "Delete line", Dragon 10 introduces direct commands for formatting, deleting, and copying named words and passages. Rather than selecting the relevant word(s) or passage and commanding what to do with that text (e.g., "Select very, [pause] Bold that"), you can now directly name the desired text with the desired action in a single voice command, such as "Bold very."

- **Improved Natural Commands for Firefox®.** (Enhanced) The same great Web browser experience with Internet Explorer® is now available for FireFox.

- **Improved Natural Commands for Microsoft® Office 2007.** (Enhanced) Use your voice to control advanced features of Microsoft® Office 2007.

- **Option to Disable Microsoft Text Services (CTFMon).** (Enhanced) Option to turn off Alternative User Input Text Input Processor (CTFMon) to eliminate potential conflicts with Dragon.

- **Disable Web Commands.** (New) Disable HTML commands separately from dictation support, so Dragon Medical won't confuse commands with dictated words.

New System Management Features

- **Improved Enterprise Security Features: Disable Scripting Commands to Prevent VBA Viruses.** (New) More configuration options provide administrators with better control of Dragon in the enterprise.

- **Upgradeable.** (Enhanced) Use your voice profiles and language models from versions 8 & 9, so all words and phrases you've added are available.

- **Auto Configuration Based on System Profile.** (New) Dragon's smart configuration software gets the highest accuracy and fastest response from older PCs and laptops by optimizing memory and processor performance.

- **User-configurable Word Formatting Rules.** (New) A new inverse text normalization (ITN) dialog gives users a faster and easier way to define the formatting options for units of measure. Users can quickly indicate when numbers should be written as numerals vs. words.

- **PowerMic™ Barcode Support.** (New) The PowerMic with integrated barcode scanner can be used to scan MRN's, Patient ID, or accession numbers.

Dragon® Medical Small Practice 10
Features and Specifications

SYSTEM REQUIREMENTS

Minimum Specifications

- Intel® Pentium® / 1 GHz processor or equivalent AMD processor. Faster processors will yield faster performance
  – Dragon Medical 10 requires the SSE2 instruction set. Processors without SSE2 are "Intel before Pentium 4" and "AMD before Athlon 64"
- 512 MB RAM or 1 GB RAM for Windows Vista™
- Free hard disk space: 2.5 GB
- L2 Cache: 512 KB
- Supported Operating Systems:
  - Windows Server 2000
  - Windows Server 2003
  - Windows XP, SP2 or higher - 32 bit - Home & Prof
  - Windows 2000, SP4 or higher
  - Windows Vista™ or Windows Vista™ SP1 (32-bit)
  - Citrix® MetaFrame Presentation Server 4.0 or 4.5
- DVD-ROM drive (required for installation)
- Microsoft® Internet Explorer 6 or higher (free download available at www.microsoft.com)
- Nuance-approved noise-canceling headset microphone (included)
- For Bluetooth wireless microphone support, please visit http://support.nuance.com/compatibility/
- A web connection is required for activation

During the install process the software checks to make sure your system meets these minimum requirements. If you do not meet the requirements, the software will not be installed.

Recommended Specifications

- Intel® Pentium® / 2.4 GHz processor (1.6 GHz dual core processor) or equivalent AMD processor. Faster processors will yield faster performance
- 1 GB RAM
- Free hard disk space: 2.5 GB
- L2 Cache: 1 MB
